

ELECTION EDITION

THE TOIKE OIKE

VOL. XII.

UNIVERSITY OF TORONTO, MARCH 3, 1922.

NO. 3

VOTE
JOHN FARLEY
 For President
 "EXPERIENCE COUNTS"

On Friday every School man will be given the opportunity to vote for a man who will not only carry on the best traditions of the Engineering Society, but who is out to revive the Old School Spirit which is the one thing above all else which makes for that reputation which S.P.S. holds in every field.

John comes into the arena with a reputation second to none. He has spent two years on the Executive of the Society and one as President of 2T3. For originality of ideas and executive ability he is the logical man to guide the destiny of the undergraduate body in the coming year. He is prepared to give unsparingly of his time and ability to make the Society really representative of the feeling of the Student Body.

It is not necessary to recommend John to the senior years, and to the others we would say that if they want a man who knows their interests and who is prepared to carry them out—"Vote JOHN FARLEY for President."

VOTE
RUS LAURIE
 FOR
 Second Vice-President
 OF
 The Engineering Society

THE man who can supply the business ability in the place where that ability is needed.

RUS LAURIE was Secretary-Treasurer and Purchasing Agent for the P.B.I. Productions Limited, the Company that put the famous P.B.I. on its successful Canadian tour. Unfortunately, he was not at School last year. Did he waste his time? Well hardly. Inside of ten months he was made Electrical Superintendent at the new Hydro Power House at Queenston, which position he held until his return last fall. This sounds like ability.

His Platform—

An Efficient Supply Department and closer co-operation between Faculty and Undergraduates.

TO THE "SCHOOL" ELECTORATE

We ask you to support and put in office

F. J. LYLE

for President of the Eng. Society. He has ideas, and has been a faithful worker in all "School" undertakings. His activities this year include the following:

School Rep., Varsity Vets. Manager, 2T3 Spasms Skit.
 M'ger, Sr. School Hockey Team. Exec. Mining & Metallurgical Club.
 Sec'y, Sr. School Rugby Team. Exec. I.R.C. Committee.

Think it over. Thank you.

SOME 2T3 VOTERS.

 LEAVE IT TO "BOBBIE"

VOTE
J. W. KENNEDY
 FOR
 SECRETARY ENG. SOC.

"Jim" Kennedy has proven himself a most enthusiastic worker in the interests of "School." No one knowing him will question his executive ability. He has been away from school for five years, and during that time has had considerable experience in secretarial work. Let's get behind "Jim" for Secretary of the Engineering Society.

OUR NEXT PRESIDENT

On page two of this issue you will see a list of the candidates running for each office. In order that the affairs of the Engineering Society may be carried on at 100% efficiency it is necessary that the Z's on your ballots be put down judiciously. The old method of 'heads-and-tails' voting must be relegated to the ash-can, as the wrong man on the Executive will throw a wrench into the whole machine and seriously hamper it in carrying on.

Of fundamental importance is your choice of a man to fill the Presidential Chair of the Society. He should be a man of integrity and sound judgment, one who has rubbed shoulders with us all and who understands the problems of the various organizations operating within the Society. A man with a first hand knowledge is obviously the man for the job, and such a man is Pat Lyle. During his three years of School life Pat has thrown himself into our various activities even to the extent of jeopardizing his academic work, and any one who has been associated with him in any capacity knows that the sterling qualities he has always exhibited will stand him in good stead in the position of President.

In John Farley you have a man of outstanding character in School life. In each of his years at School he has been identified with some executive in various capacities. John's executive experience certainly entitles him to your consideration as a voter.

When therefore you go to the polls this afternoon, remember that you have a solemn duty to perform. Don't let your vote be prejudiced by any group or faction scandal-mongers, but cast your ballot for the man who will carry the escutcheon of the School as it should be carried.

HART HOUSE ELECTIONS

Hart House Elections will be held on Tuesday next. Voting will take place from 11.30 a.m. to 2.30 p.m. and from 4.30 p.m. to 6.30 p.m. School will vote in the Lecture Room. You will have to have a Hart House membership card before you can vote. This may be obtained from the Hall Porter if you have not already obtained one.

In order to preserve continuity in the various committees it was decided that two members of each of the present committees be elected to carry on next year. This means that only eight men will be elected on Tuesday. Do not vote for more than eight candidates. You may vote for any number less than eight. Show some life—turn out and use your vote.

"The sins of the father are visited on the children," said Dave Rosebrugh as he cranked the rheostat.

"Bloor transfer," shrieked Jack Langford as he struggled with the porter on the return trip from McGill.

Popular Man
NOMINATED

MR. C. H. VAN HORNE, of the First Year, was this afternoon nominated for the position of Curator of the Engineering Society. The nomination was very popular, not only in the Freshman Class but with the members of the other years.

"Van," who hails from St. Thomas, is a prime favorite for the position for which he has been nominated, and should head the list of nominees. Mr. Van Horne has occupied several executive positions and has been remarkably successful in every one of them. He is a good scout, a thorough good head and is the right man for the job. The nomination was made by Mr. H. L. Norman and seconded by Mr. A. R. Oke.

CIVILS

Bill McLellan's friends predict big doings in the Civil Club if he is elected chairman for the coming year. His experience has been broad enough to embrace both the social and technical side of college life.

At Gull Lake this summer, Bill saw the possibilities for cementing friendships which cannot be made in lecture rooms and he suggests a continuance of the good work started there by creating a more intimate contact among "Civils" of every year. This can only be accomplished by emphasizing the importance of social activities within the club. He suggests a few snappy "smokers" and "dances." You can't make a mistake if you cast your vote for "the Duke."

Senior School Basketball are still coming strong and by all the signs should clean up their group. They deserve your support.

ANSWERS TO CORRESPONDENTS

No Clara—"Tiny" Houston is not receiving next Thursday. Proximity of exams. has forced him to retire from social activities.

To the contrary Garge—The Engineering Society Pres. is not a paper salesman. He intends re-decorating his rooms.

You win Ted—The second last line is: "Said the plumber still plumbing."

When seen by our reporter Mr. McClinton said, "Since no one would second the hickie I am forced to withdraw my nomination as Curator."

When asked by our cub reporter for a statement, Mr. Maguire replied, throwing out his chest,—"I guess I've got those miners buffaloed. Look what I did to Morrison,—now I'm 'choreman' by acclamation!"

"Quick, Watson, the Corkscrew!"
Yellow Ball in the Side Pocket:

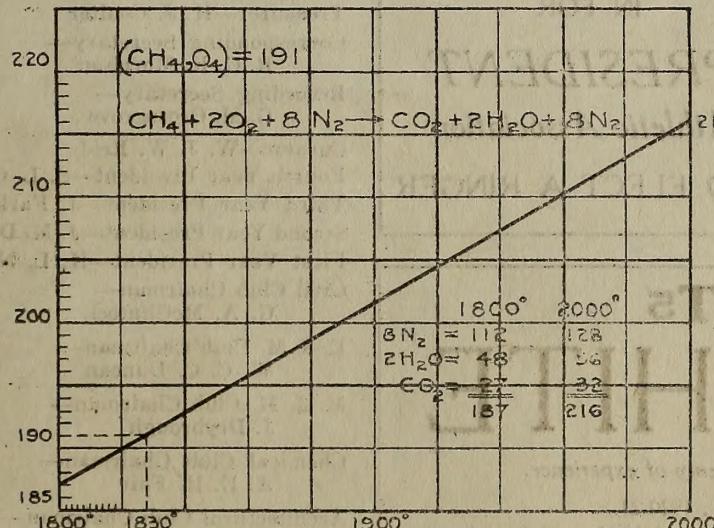

Wanted—2 men and a boy to hold John Bull away from the cider barrel.

It has been rumored that Prof. Louden has tendered for Stan. Glover's brogues for the summer months. Apparently the building of work boats has proved unfeasible.

"Thank God that's over," said John Drybrough as he tenderly placed some moth balls in his dress suit.

"Vive la France," cried Geo. Bryant as he was hurled into the Snake Room of the Windsor, during his recent trip to Montreal.

The Junior School Basketball Team have won their group and are showing up strong. Watch the Bulletin boards and support them.

N. S. GRANT, III. YEAR.
 F. B. BOSWELL, II. YEAR.
 J. G. PIKE, III. YEAR.
 D. G. SMITH, II. YEAR.
 G. K. CROWE, III. YEAR.
 W. E. WRIGHT, III. YEAR.

Our friend J. D. stoutly maintains, in his well-known tenor voice, that he was not the J. D. McNIVEN found inebriated in the horse trough opposite Queen's Hall, as he didn't give those initials.

VOTE
TED HUGGINS
 for
 First Vice-President

He wants to **HUG** the Job

So **IN** to do him it

Listen, folks, I'll tell you about Ted, that big, smiling friend of everybody. This is what—

Treasurer Varsity Vets
 Vice-President 2T3
 Captain Varsity Rifle Team
 Backbone of "P.B.I."
 The Jester (?) of Spasms

Now set for
 First Vice-President

And, fellows, he'll put all the energy and pep into it that made the above such successes. 2T2 and 2T3, do your duty. 2T4 and 2T5, I'm putting you wise to something good, something that will make all other faculty functions look like an Eskimo Wedding compared to a Pussyfoot Johnson excursion to the South Sea Islands—

VOTE TED--HE'S THERE

Stan. Coulter stoutly denies any malignant intent in breaking into Annesley Hall. He maintains he mistook it for his Elizabeth St. Mansion.

Shiver my timbers, said Bill Robertson, as he tossed his wooden leg into the corner.

There was an unsociable Goof, Who at parties was always aloof, But on a setee With a girl on his knee He set for his limit—the roof.

VOTE
